M'CREARY'S HOT STUFF

Expected to Discuss New and Sensational Issues Tomorrow.

VETERANS TO ESCORT.

Speechings Will Be at the Tabernacle at 1:30 P. M.

Senator James B. McCreary will arrive in the city tomorrow morning at 9:45 and will be met at the depot by a committee of Confederate Veterans, who will escort him on foot to Hotel Latham. There will be music but no carriages or parade. The speaking will be at the Tabernacle at 1:30 p. m. The Veterans will attend in a body and a delegation of the Daughters of the Confederacy will also attend.

Arrangements for the introduction of the Senator have not been announced. The McCreary Club headquarters this week are in charge of Prison Commissioner Geo. V. Green. Mr. Green is circulating a "Bombshell Edition" of Noel Gaines' Crusader, with some highly sensational matter in it. He says Senator McCreary will fire some hot shot tomorrow and from now on there will be no lack of interest in the campaign.

At 6:18 the same afternoon Senator McCreary will leave for Shelbyville. With favorable weather, the attendance will be large.

CURFEW LAW

Made Necessary by the Imperfect Juvenile Jurisdiction.

Since the new Juvenile Court law has interfered with the jurisdiction of the Police Court in the punishment of criminals under 17 years of age, the streets are in danger of becoming infested at night with bad boys white and black, who in some instances defy police authority. This condition of affairs has caused the question of a curfew law to be raised to keep boys off the streets at night. This kind of a law could be enforced by holding parents and guardians responsible for the presence of juvenile offenders on the streets.

STILL ALIVE.

Lindsay Leavell's Wounds Serious But May Recover.

In our issue of Tuesday we stated that Lindsay Leavell, the negro who was shot by Mr. John T. Goode, had died and was buried Sunday. A gentleman who lives in Pembroke was our informant and was a man of undoubted veracity, but he was misinformed. We called up Dr. Paine, who has been attending the negro and he said he went to see the negro Tuesday and dressed his wounds. Dr. Paine also said that the negro might recover but chances in his favor were very small.

A Comfortable Deposit.

A statement of the Citizens Bank & Trust Company, of Tampa, Fla., of which Mr. W. W. Trice is Assistant Cashier, has been shown us, in which the bank has \$100,000 capital, \$100,000 surplus and more than \$1,500,000 of cash deposits. The Assistant Cashier is a son of Mr. Jno. B. Trice and is a Hopkinsville boy whose lines have fallen in pleasant places.

Daughters to Meet.

The monthly meeting of the United Daughters of the Confederacy will be held at Hotel Latham Saturday afternoon at 3 o'clock.

VERDICT GIVEN AGAINST CITY

J. E. Mabry Secures Judgment for \$280 Alleged Damages.

WALL MADE UNSAFE.

Curb Line Too Low to Keep Water Out of Stable.

The damage suit of J. E. Mabry for \$1,000 against the city of Hopkinsville was tried by a jury Tuesday and a verdict given the plaintiff for \$280. The pavement in front of his stable, on the corner of Elm and West Seventh streets, has not been raised to conform to the raise in the grade of the street and during the recent hard rains water from the street ran over the pavement and into the stable, which is built on ground below the street level. The case will be appealed and the curb line will be elevated to conform to the new conditions. Testimony was given that a brick wall in the foundation of the stable has become unsafe and that it will have to be condemned.

The commonwealth docket was taken up in the Circuit Court yesterday and the remainder of the term will likely be consumed in the disposition of criminal cases.

The grand jury, which is still in session, returned another batch of a dozen or more indictments on Tuesday.

STANLEY'S OPPONENT

Cannot Get His Name on the Ballot.

The Republican convention at Dawson, controlled by the Revenue gang, nominated John S. Adair, of Hancock, for Congress, although Paul M. Moore was the only man eligible for the nomination. The limit for filing certificates has expired, but Mr. Moore had filed a petition and expected the convention to authorize him to use the party device. This has been denied him and as he will hardly run independent it leaves Stanley without opposition, as Adair's name cannot go on the ballot. The move was doubtless made by Broncho Franks to keep the district leadership from passing to Moore.

FESTIVAL AND COUNTRY FAIR.

Members of National Fraternal Union to Open Their Big Carnival Monday.

SIX DAYS AND NIGHTS.

Big Preparations Being Made and a Glorious Time For All Is Assured.

The members of the local lodge National Fraternal Union have almost completed all arrangements for the opening of their fall carnival or "festival and county fair," which ever you want to call it.

It will be remembered that these gentlemen, composing the membership of the local N. F. U., gave to the public the best carnival entertainment brought to the city last year, by far, and they say that the one to begin next Monday and continue through the week, day and night, is not only going to surpass the one of last year, but is going to surpass anything of the kind ever witnessed in the city. They claim that they have secured a class of attractions that will prove far superior to any of the ones of the ordinary carnival organizations. Last year they engaged the services of the Parker Amusement Co. to furnish the attractions, and they furnished, as an average, good ones, but this time the boys of the N. F. U. wanted something better, at least something that they believe will be better, so they have secured the services of a number of independent amusement concerns, which they claim will prove far superior to the ones offered by the carnival organizations touring the country. They claim that the ones they will have are the pick and choice of a selection offered by several of the most widely known independent amusement companies in the country and will be brought here upon a guarantee of superiority.

In number there will be nineteen attractions, four of which will be offered as free attractions, and to see the other fifteen shows a small admission fee will be necessary.

The members of the order are on the hustle, night and day, now making preparations for the event and if the weather is suitable next week, and doubtless it will be, as the cool snap will probably pass over before that time, and the country roads will have dried up, if it doesn't rain any more, and no doubt the crowds that will greet them on the opening day and throughout the week will be fully up to their expectations.

In addition to the carnival proper, on Thursday and Friday will be given a "county fair," which will prove of special interest to farmers, as large premiums will be offered on all kinds of farming products. See the claims as set forth by the members of the N. F. U., and also the list of attractions, in the large advertisement on the second page of today's KENTUCKIAN.

MOVEMENT STARTED

To Build \$40,000 Theatre on Latham Lot.

Another meeting looking to the building of a new theatre was held Monday night, with twenty or more leading citizens present. Mr. John C. Latham was present by invitation and made an encouraging talk and offered to donate a part of the lot between Sixth and Seventh streets, fronting on Liberty, for a site. It is proposed to erect a \$40,000 theatre.

A committee of the following gentlemen was appointed: M. C. Forbes, E. B. Long, H. L. McPherson, L. H. Davis, T. J. Tate, W. A. Wiggins and John H. Bell, Jr. The committee will meet tonight to outline the actual work of raising \$20,000 stock.

STORE NEWS

At Anderson's.

The opening is over and now we are settling down to work in earnest. The season is right on us and customers should attend to their wants at once to get choice of styles. Our Ready-to-Wear Department is receiving something new every day. Specials in this department can be furnished very promptly now, but a couple of weeks from now it will require twice as long. The \$5.00 fine All Wool Lymansville Storm Serge Suits we are showing will cost half as much at any other store, and so they will at our store when our present stock is sold out.

Our Shoe... Department.

Was never so well equipped to supply the wants of all classes as it is to-day. Prices are some higher, but you may depend upon the quality being the same as heretofore. Any merchant who offers to sell the same shoes at old prices to-day has either been swindling his customers in the past by charging more than the shoes were worth, or is deceiving them as to the quality.

Winter Underwear

This is the month to buy Winter Underwear. Our stock is complete and has all sizes from infant's to the largest men and women. Some special bargains in men's extra sizes.

Flavor of Eggs.

By E. J. FOWLER.

In an editorial in your September number, on the "Quality of Eggs," you make some very sensible and practical suggestions as to the care of laying hens, showing conclusively that the quality of their food has much to do with determining the quality of the egg product. You also lay stress upon flavor as being the main element in determining the quality—the article quoted from the Farmers Sentinel, of Wisconsin, the contrary, notwithstanding. I fully agree with you in this and feel that all who enjoy eggs—poached, boiled or scrambled (and many eat them raw) can easily detect the flavor, unless it be destroyed with bacon or salt and pepper, and it is this delicate, indescribable flavor which appeals to the taste of every real lover of eggs.

Beside the food of the hen, which you emphasize, there are external influences that have much to do with the flavor of eggs, and it is to call attention to some of these that I write this.

An egg breathes, just as every other living thing, taking in and exhaling air as the surrounding temperature changes; so, in order to preserve their flavor, eggs should be kept at a uniform temperature, or as nearly so as possible, and far from strong, objectionable odors. I recall having, on one occasion, packed some fresh eggs in a large gourd, from which the seed had been taken, without removing the pulpy lining that adheres to all gourds. In a short while we began to use them and things brought to the table seemed to have a peculiar taste—the batter-bread seemed to be a little off, the cake appeared to have been doctored, although the good woman insisted that she had used Price's best extracts; the lettuce, though the dressing was made with vinegar and mustard, seemed to have a gourd leaf or something other than lettuce mixed with it. We began to think that perhaps someone had designs on us and that there might be "death in the pot," but when some boiled eggs came on, that had come from that gourd, the odor and flavor were

identified and we discovered the connection.

We had a similar experience with "moth balls" that had been placed in the nests to destroy insects, though we were not so long in locating the "rat in the barrel." One who has ever smelt a "moth ball" will readily recognize the odor.

In order, then, to have the best eggs, they should be kept clean and cool and removed from noxious odors, so that, like one's self, they may be free from contamination.

R. REDD.

THE PLAIN TRUTH.

What More Can Hopkinsville People Ask?

When well-known residents and former residents, highly respected people, make such statements as the following, it must carry conviction to every reader:

W. H. West, stock raiser, city comable and collector, who lived at 849 West Seventh St., said: "I suffered for years with kidney and bladder troubles, and in consequence was subject to a great deal of pain. There was a heavy, dull aching in the small of my back over my right hip and extending down over the bladder. The pain became especially severe if I should sit around or remain long on my feet. The difficulty of the kidney secretions annoyed me at all times. They were scanty, irregular, and the passages were accomplished with a burning sensation. I heard so much about Doan's Kidney Pills that I got a box and gave them a trial. I found that they benefited me in every way, so much so that I took the occasion to recommend it to my friends. I hope that it will be the means of relieving others who may be suffering from that common complaint, 'kidney trouble.'"

People Will Eat More Eggs.

"Tis an ill wind that blows nobody any good." The storm of dismay, disgust and apprehension which the official exposure of the state of things prevailing in the slaughter houses and packing houses of Chicago has provoked should cause the heart of the vegetarian to leap with joy. Misery loves company, and the advocate of a purely vegetarian diet may now look forward to making multitudes of converts. It is perfectly true that peas, beans and other lentils are rich in nitrogenous products; that all the other elements of nutriment are derivable from the cereals, nuts, tubers and other vegetables, and that all the fuel needed for the lungs may be obtained from olive oil and oils expressed from cotton seed and other vegetable sources.

"It is unnecessary, however, to confine oneself to a strictly vegetarian regimen in order to avoid contamination from the filthy, diseased, decayed or poisonous products of meat. The fruit of the hen is always with us. Nothing but age can contaminate the egg, and the effect of age makes itself known instantly to the prophylactic sense of smell. An immense stimulus ought to be given to the egg-raising industry, in view of the aversion and suspicion with which meat products are likely to be eyed, for a considerable time at all events, by thousands if not millions of former consumers on both sides of the Atlantic.

"Ultimately, no doubt, when the conviction that a drastic reform of the methods of preparing meat has been effected and is permanent, shall have become widespread and deep-rooted, the inherited relish for animal food will reassert itself. Meanwhile, inasmuch as a lack of confidence has long been manifested with respect to milk and its products, and inasmuch as grave doubt is beginning to be cast upon the fish-packing industry, and has long attached to so-called fresh fish unless the freshness could be guaranteed, the taste for animal food may have to seek satisfaction mainly, if not exclusively, from the egg. Way to Make Hens Moul.

One of the achievements of poultry keeping is that of forcing a hen to moult before spring, and grow a new one before the time when she would do so naturally. Many hens shed their feathers so late in the season, naturally, that cold weather overtakes them before they get new suits, consequently they seldom begin laying before spring. If the moult can be hastened so that a new coat of feathers is grown and the laying can be started before cold weather, the prospect is good for a supply of eggs during fall and winter.

The result is usually accomplished by cutting off all meat and mash foods, putting the hens on short rations of grain for a week or so to stop the laying, then allow more liberty and feed a full ration high in protein. This loosens the old feathers, which drop off quickly, and starts a rapid growth of the new. A liberal allowance of beef scrap is essential, and linseed meal is an advantage. Sunflower seeds are also good during the moult.—Farming for July.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics, gripe, sicken, weaken the bowels and don't cure. Doan's Regulants act gently and cure constipation. 25c. Ask your druggist.

How to Test Eggs.

A Nebraska woman describes a simple way of testing eggs to tell whether they are fresh: "When they are taken from the nest or purchased from the grocery, put them in a pan of water. If they are perfectly fresh they will sink to the bottom and lie still, directly on their sides. If they are not quite fresh they will tilt a little and rock about on the bottom of the pan. If very bad they will float. The best plan is to try one egg at a time.

Don't let the baby suffer from eczema, sores, or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All Druggists sell it.

Judge Frank Peake, of Shelbyville, has declared the county unit law to be unconstitutional.

President of the Miners' Union Tells
a Good Story.

John Mitchell, president of the
United Mine Workers, has been talk-
ing about the various methods in use
at the mines for weighing coal. Of
one method, a method of the past,
he said:

"This method was long ago aban-
doned on account of its unfairness.
It was most unfair. The fist and
pound method, in fact, was scarcely
worse."

"The fist and pound method origi-
nated, they say, in Scranton. A
simple minded old lady ran a gro-
cery store there. A man came in one
day and asked for a pound of bacon.
The old lady cut off a generous
clunk of bacon, and then, going to
weigh it, found that she had mislaid
her pound weight somewhere."

"The man, seeing that there was
about two pounds in the chunk cut
off, said, hastily:
"Never mind. My fist weighs a
pound."

"And he put the bacon on one side
of the scales and his fist on the other.
The two, of course, just balanced."

"It took kind of a large for a
pound, don't it?" asked the old lady,
as she wrapped the bacon up."

"It does look large," said the
man, as he tucked the meat under
his arm. "Still—"

"But just then the old lady found
her pound weight."

"Ah," she said, in a relieved voice,
now we can prove this business. Put
it on here again!"

"But the man wisely refrained
from putting the bacon on the
scales to be tested. He put on his
fist again instead. And his fist,
you may be sure, just balanced the
pound weight."

"The old lady was much pleased."
"Well done," she said; "and here's
a couple of red herrin' for yer skill
and honesty!"—N. Y. Sun.

HEARD MANY FAMILY SECRETS.

London society has been a good
deal interested of late in the affairs
of the Townshend family which have
been bared in the course of certain
legal proceedings in Lincoln's Inn
Hall, which is a most appropriate
place for such an inquiry. For
n is long existence—it was built
just 500 years ago—its walls have
witnessed the story of many family
secrets. For about 100 years it was
used as the lord chancellor's court
and here was heard about 50 years
of the preliminary litigation in
Jarndyce vs. Jarndyce, or, to give
it its proper name, the Jennings case,
which arose out of the disposition
of the property of William Jennings,
who died in 1798. That Dickens
did not exaggerate is proved by the
fact that the case was not finally
settled until 1878, long after the
novelist's death, and a spasmodic at-
tempt to revive it, happily nipped in
the bud, was made in 1893 in an
action against Earl Howe, the heir-
in-law of old William Jennings.

\$1,000,000 FOR HAIR.

How Many French Girls Sup-
ply Their Purses.

William E. Curtis, writing from
Paris to the Chicago Record-Herald,
says:

"The annual crop of human hair for
many years has averaged in value in
Paris alone more than \$1,000,000
but this year the coupeurs, who are
beginning to come in, report a de-
cided falling off and predict that the
crop will not amount to more than
\$200,000, although the demand has
increased considerably in the past few
years."

Fashionable women are wearing
more false hair than formerly. It is
the fashion to do so and the increased
demand in a large measure, it is said,
has been caused by the rule prohib-
iting the wearing of hats in theaters."

Usually the coupeurs pay either in
cash or goods from \$10 to \$25 for a
head of hair. The price is usually
from \$5 to \$8 a pound, according to
length, quality and color. This year
they complain that they have had to
pay double those prices and that the
girls are more reluctant than ever to
sell. Prices have run as high as \$60
and \$75 a pound. The newspapers
report one woman at Limoges who
sold her long plaits this fall for \$190,
which is the record price. Three girls
belonging to another family at the
same place sold their combined treses
for \$480. The average price paid
was double that of previous years."

The Worst to Come.

"English is a very difficult language
to speak," observed the foreigner who
was struggling to learn it.

"Cheer up," said his American
friend, "it isn't half as hard to speak
as it is to spell."—Detroit Free Press.

Democratic Ticket.

FOR CONGRESS.

A. O. STANLEY,
OF HENDERSON.

The Weather.

For Kentucky—Fair and warmer
Thursday.

City Democrats who did not register cannot vote in the Democratic primary. This will be a surprise to some of them.

Republicans at Bowling Green have brought a suit before a Republican judge to stop the Democratic primary on the ground that it cannot be held on the same day as the general election.

Louisville will not cut so large a figure in the primary this year. Only 18,000 Democrats are registered and there cannot be any 15,000 majority returned. The candidate who gets 6,000 in Louisville will be fortunate.

The Hon. Leslie M. Shaw, Secretary of the Treasury, spoke at Leitchfield Tuesday afternoon and at Elizabethtown that night. Yesterday he was in Louisville and made two speeches, one at night in the interest of Owens for Congress.

The call for the Second Convention of the Southern Conference on Immigration and Quarantine has been issued by the chairman, Gov. J. C. Cox, to be held in Nashville, November 12 to 14, 1906. The conference is to be held under the auspices of the Nashville Board of Trade.

"Steeple Jack" Graham, while under the influence of liquor, ascended a stanchion 20 feet high at South Bend, Ind., and told the painters at work at the top that he would cut the ropes supporting the scaffold. Realizing their danger, the painters lowered themselves to a small window, and hardly had cleared the scaffold when it fell to the ground, all of the ropes having been cut.

Henry Gottbrath, desiring to compliment the members of No. 12 engine company, Louisville, for having saved his house from destruction by fire, said he intended to name his newly born babe after the members of the company. Accordingly he had the child christened John Smith Paul Graham Matt Kelly Ralph D. Brown Edward Buckner George Boylan David McCormick Henry Gottbrath.

While working on a platform on top of a four-story building in Chicago, John Michelson fell headlong towards the ground 200 feet below. After he had dropped fifteen or twenty feet one leg became entangled in a rope used for hoisting purposes, which broke the force of his fall. Grasping this he succeeded in stopping himself, and, climbing back hand over hand to the top of the building, picked up his trowel and resumed work. Two badly blistered hands were the only injury Michelson sustained.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased part of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is cured by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sprightly in every sense of the word is the October number of The American Boy. Perhaps its most distinguishing feature is the opening of the illustrated serial "Puppy in Peace and War, or Chapter from the Lives of Puppy, Beany, Pewt and Others," by Judge Henry A. Shute, the author of "A Real Boy" and "A Real Girl," and other Puppy stories. The story is well illustrated by one who evidently understands boys. The number contains further chapters of "In Defense of His Flag," by Edward Stamey; "The Camp Fire of Mad Anthony," by Everett T. Tomlinson; and "The Young Book Agent," by Horatio Alger, Jr. In addition there are many other new stories.

NEXT AT PADUCAH.

Milton McLean Elected Grand Chancellor of the K. of P.

The Kentucky Grand Lodge, K. of P., which was in session for three days at Elks' Home, Louisville, last week, completed its business Friday afternoon. The principal business before the lodge on the last day was the election of officers for the ensuing year, and the selection of Paducah as the next meeting place. The election of officers resulted as follows:

Grand Chancellor, Milton H. McLean, of Covington.
Grand Vice Chancellor, George D. Young, of Louisville.
Grand Prelate, O. H. Pollard, of Jackson.

Grand Marshal at Arms, Cornelius Saunders, of Franklin.

Grand Inner Guard, W. J. Hissom, of Newport.

Grand Outer Guard, J. Schoberth, of Versailles.

Grand Keeper of Records and Seal, J. W. Carter, of Owensboro.

Grand Master of Exchequer, Jule Plummer, of Bellevue.

The following board of directors for the Widows' and Orphans' Home was elected:

Three-year terms, W. C. G. Dobbs, of Lexington, and Emmett Orr, of Owensboro.

Two-year terms, Lucien Davis, of Hopkinsville, and R. M. Hunter, of Nicholasville.

One-year term, McHenry Rhodes, of Owensboro.

The principal contest growing out of the election was in the race for grand outer guard. The candidates were J. Schoberth, of Versailles, and George C. Carter, of Landon. Mr. Schoberth was elected by a close vote.

IN BAD SHAPE.

Unprecedented Wet Season

Unfavorable For Farmers.

It is generally conceded that the months of August and September of this year have never been equaled for rains. Rain fell in torrents part of the time and nearly every day showers fell. This was hard on the farmers in many ways, and it has been said that farmers were never so far behind in their work as at this time. But little ground was followed because it was too wet, the worms were eating the tobacco grass and weeds were taking every field of corn, the hay crop has been ruined to a considerable extent, and nearly everybody is behind time cutting corn.

BARNES ITEMS.

Barne, Oct. 7.

Coming to the (un)labeled rains, no one had it, it was.

Farmers in this section are about through cutting tobacco.

Corn that was cut two or three weeks ago is sprouting in the sheek, owing to too much rain.

Esquire G. B. Powell's child had a severe attack of membranous croup this week, but will recover.

Mr. Oscar Barnes will return to Louisville, Monday, to enter a medical college. This will be his second year.

Mr. and Mrs. Joe Fruit, attended services at Ford's chapel last Sunday. They dined with the family of Mr. E. M. Barnes.

Bro. B. F. Hyde began a revival meeting at New Barren Spring Baptist church last week, but had to close Saturday on account of the rains.

Rev. James A. White, of Haley's Mill, visited Hopkinsville last Thursday. He was the guest of his old friend, Elbert M. Barnes, before returning home.

Bro. H. H. Powell is conducting a revival at the Pleasant Hill Baptist church. He is having large congregations, considering the rainy weather. Bro. Powell is a very able speaker.

Mrs. Mattie Robinson Berry, of Sedalia, Mo., has returned to her home, after a three weeks' visit to her father's family, Mr. Gus Robinson, and other relatives in North Christian.

Mr. Vego Barnes has returned to Bowling Green to take a post-graduate course. He graduated last summer, at the age of 17, being the youngest graduate who ever received his diploma from the institution.

A party of young men went hunting on Kinney and Barnes Knobs, Thursday. They report game as being very scarce. They had a fox chase, however, which compensated for the scarcity. The party consisted of Marshall Long, Joe Fruit, Toddy Ford, Tom King, Walter Knight, Dave Knight and Ernest Marquess, BARNES.

GOOD PRICES

Realized For the Lots Sold
In Dagg Property.

The sale of the property of the old Dagg planing mill, (taken in by the Forbes Manufacturing Company several years ago) was held at public auction Tuesday afternoon, and the property brought highly satisfactory prices. There were five lots in Virgil street sold as follows:

No. 6, 22x120, \$665 to M. L. Elb.

No. 7, 22x120, \$500 to Winfree & Knight.

No. 8, 22x120, \$450 to W. T. Tandy.

No. 9, 22x120, \$500 to Winfree & Knight.

No. 10, 52x120, with house \$1750 to Winfree & Knight.

Two on Fourth street:

No. 5, 33x89, warehouse, \$700 to Winfree & Knight.

No. 4, 33x89, \$375 to Winfree & Knight.

Three on Main street:

No. 1, 22x131, \$655 to A. Sargent.

No. 2, 22x131, shop, \$950 to J. H. Bell.

No. 3, 34x73, \$675 to T. W. Blakey.

The total sales were \$7,220. The property was then offered as a whole but there was no bid and it went to the separate purchasers.

The lots were located on Main and Virginia streets between Fourth and Fifth. The terms were one-third cash and balance one and two years with six per cent interest unless the purchasers preferred to pay all cash.

STILL UNDECIDED.

Rev. M. A. Jenkins Has Not Yet Accepted Call.

Rev. Milford A. Jenkins, of Dublin, Ga., has not yet decided to accept the call to the pastorate of the Baptist church here. He asks that the church bear with him a little longer, as he is greatly perplexed, with both Hopkinsville and Baltimore urging him to come. The letter was written Monday night to Mr. J. H. Anderson and received yesterday.

A TYPICAL LETTER.

Mrs. Carry Peduzzi, Linstadt, N. Dak., writes:

"I take pleasure in telling you that through your wonderful medicine I am entirely cured of catarrh of the stomach and pelvic organs."

"I was so rundown on account of my illness that I could no longer attend to my housework. I could not eat or sleep and had terrible pain in my back. I took Peruna and in five months I was well. I have not felt so well for a long time."

"I wish everyone who is sick would take Peruna and thus recover their health. I have Peruna in the house continually. I thank you for all that you have done for me."

A Medicine of Merit.

Miss Katie A. Washer, 1200 Prentice street, Louisville, Ky., writes:

"As my experience has been so favorable from the use of Peruna, I unhesitatingly state that I believe that it is a medicine of unquestioned merit for all the ills that we women suffer from."

"I find that it strengthens and infuses new life into the system, and whenever I feel rundown or over-tired, a few doses of Peruna will strengthen me again."

Found a Friend in Need—Pe-ru-na.

Mrs. Florence Atkins, 1101 Front St., Toledo, Ohio, writes:

"Peruna cured me of catarrh of the uterus. I took about four bottles when I noticed an improvement and five bottles cured me."

"I do not know what I would have been like to-day had I not obtained Peruna, for I was in a terrible state."

"I had pains all over and was cross and irritable. I was losing hope of ever being well again."

"I am to-day a well woman after suffering for nine months. I cannot tell you how happy I feel, but you will know."

"Peruna is the best medicine on earth. My husband is now taking it and I will always keep Peruna in my house. Peruna is the best friend I ever had. It cured me."

America is the Land of Nervous Women.

The majority of women are nervous because they suffer from some form of pelvic catarrh.

The greatest obstacle in the way of recovery is that they do not understand that catarrh is the main source of their illness.

Women who are in doubt as to their ailments should write to Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, who will give their letters prompt attention, without charge.

Miss Anna McGinn, 101 Plain street, Providence, R. I., writes:

"I wish to let you know of the good your medicine has done for me."

"I had what the doctors called heart trouble. I had been doctoring for a year before I tried your Peruna."

"I got a bottle of your Peruna after a week's use of it I began to feel better. I could not eat, sleep, or work, but I have at last found that the medicine that will cure me is Peruna."

The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any jeweler might be proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

Tuesday afternoon the mercury took a sudden plunge downward a little after 3 o'clock. A strong gale from the West preceded it Monday. BIG DAY.

A. S. of E. to Meet Here Monday, October 22.

A crop report from every farm every day. Monday, October 22, is the day set for the A. S. of E. meeting in this city and then your representatives will leave for the great national convention of stock and grain growers, in East St. Louis, Ill. The up-to-date farmers understand that we have members in 2,700 counties out of 2,800 in the country suitable for agriculture and at 28,000 postoffices.

A crop report from every farm every day—this is exactly what it means—when the American Society of Equity is completed. Everything is working to this end with great rapidity.

HOW IT WILL BE DONE.

The Society of Equity is organizing every farmer into local unions. The country will be divided into six districts and each district will have a headquarters. All these unions and headquarters will be presided over by the national union of the A. S. of E. Most farmers have telephones now. The others will have them, when the A. S. of E. reaches them, or they can report their crop by mail. First, the local union knows what its members have to sell; second, the county union knows every day how much of each farm crop is ready to market in the whole country and exactly where the supply is and on what railroad it can be shipped; third, the headquarters know every day how much of each farm crop is ready for market in all the states and Canada.

The report of the demand and the distribution of the crop will be quite similar. Representatives in all the leading cities will report to the district headquarters the demand from their territory. As the farmers will control the supply, this report will be easily secured, because whoever wants supplies must seek out the farmers' representative. Then he will telephone out to the country unions and the country unions will telephone to the local unions or shipping station to ship just enough supplies and exactly to the spot where needed to feed eighty-five millions of people who are consumers of farm products.

Up, farmers! Up! and attend our next meeting. If you don't take your own part, who is going to take it for you? Sure this is a grand work and it has now reached the point where the world recognizes its greatness and grandness. Opposition has almost ceased and no well informed person can longer express a doubt as to its practicability and its ultimate success. Will you honor us with your presence?

F. B. McCOWN, President,
C. C. A. S. of E.

The Royal Month and the Royal Disease.

Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during normal October is commonly great. We never think of scrofula—its bunches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merits in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative—consumption.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant, of Bac, Ky. He writes: "Twenty years ago I had severe hemorrhage of the lungs, and was near death, when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, chronic coughs, settled colds and bronchitis, and is the only known cure for weak lungs. Every bottle guaranteed by R. C. Hardwick, druggist. 50c and \$1. Trial bottle free.

First Frost.

The weather prophet's forecast for Tuesday night was fulfilled. A light frost has been reported in different sections of the county, but as tobacco had about all been cut and housed, there was but little, if any, damage. The fair weather of the preceding few days had given the farmers a chance to make preparations for the first frost.

PERSONAL GOSSIP.

Charles B. Hanford has made it an absolute rule to make each of his annual productions as much of an improvement on its predecessors as expenditure of money and energy could accomplish. When Mr. Hanford's tour closed in May last, his manager, Mr. F. Lawrence Walker, made the announcement that it had been the most prosperous season Mr. Hanford had ever known. The prosperity this popular star has enjoyed of later years has been manifested not in expenditure for matters of personal luxury, but in his productions. He has made his performances his chief interest and the public which has been so loyal to him for many years has been able to regard the money paid in the box office during a Hanford engagement, as being in a sense, an investment which would bear returns in the shape of greater productions in the seasons yet to come. Mr. Hanford's management announces a greater and a greater production for the forth coming representation of "Julius Caesar" at Holland's Opera House on to-morrow night than he has ever before given. The play is one which commands the fullest resources of the modern theatre and the Hanford production is the result of lifelong study and experience. Mr. Hanford will appear as Marc Antony.

HE REVERSED THE BIBLE.

Good Story Told of Prof. Riddle of the Revision Committee.

Prof. M. B. Riddle, of the Western Theological Seminary, Allegheny, Pa., has for many years spent his summers at Castine, Me. Prof. Riddle served at the time of the revision of the Bible on the American committee of revision, and his connection with that committee as well as his eminence as a theologian has made him a marked man among the summer colony at Castine.

One day some years ago Prof. Riddle was walking along the wharf at Castine, dressed in old boating clothes and an old white sweater, waiting for the wind to breeze up so that he could indulge in his favorite recreation—sailing. He was smoking a pipe, as is his custom. One of the wharf hands at that time was Joe Hackett, a man about as distinguished among the people of Castine for his lack of biblical lore as Prof. Riddle was for his familiarity with it.

While Prof. Riddle was thus loafing around the wharf a stranger went up to Joe and said: "Who is that old fellow over there smoking a pipe?" Joe looked up to him in a surprised, but rather a patronizing look, and said: "Why—why—why, don't you know that man? Why, that is the man that reversed the Bible!"

That was quite a number of years ago, but among his friends Prof. Riddle has not outgrown his reversing the Bible.

WITH A RESERVATION.

The Evidence Showed It But the Judge Didn't Believe It.

A certain judge is noted for the strict impartiality with which he arrives at decisions, even when his personal bias is strongly the other way.

On one occasion, having heard a certain famous case, he found himself impelled to give a decision repugnant to his own inclination.

"Do you mean you think the defendant was not at heart a swindler?" demanded an intimate friend.

"Well," said Judge X—, solemnly, "I took that evidence abroad for a week-end with me and studied it."

Then I brought it home and spent more time on it. Then I said in my decision:

"So far as the evidence shows, the defendant is an upright and honorable gentleman."

"So far the evidence shows," he repeated slowly and with emphasis. Then he leaned forward in his chair, placed a hand on the other's knee, and exclaimed, with an air of vindication: "But, my friend, I didn't say I believed it!"

A REMARKABLE SPRING.

One of the most remarkable springs in the world, says J. A. Eddy, in the *Engineering and Mining Journal*, has just recently been discovered in New Mexico. It is literally a spring saturated with sodium sulphate. Distilled water weighs eight and one-third pounds per gallon; the water of this spring weighs ten and two-thirds pounds. The temperature of the spring is a little over 110 degrees Fahrenheit. As the saturated liquid overflows and cools, it forms a crystalline mass like ice, which in the course of ages has spread into a snow-white bed of solid sodium salts, miles in extent and as hard as a lake. The warm brine is inhabited by a minute shrimp-like organism, and a species of plant is found growing in the dry expanse of sodium sulphate.

NEW CITY DIRECTORY.

A Crying Need to Be Supplied.

The last directory of Hopkinsville was issued in 1899 and many of the directories, imperfect as they were and now out-of-date, are still in use. The time is ripe for a new, up-to-date and improved directory. We have arranged with Mr. Toles Thornton, a thoroughly experienced directory man, to get up a new edition of Meacham's City Directory.

The last edition was by order of the council made the official directory of the city. The new book will show the great growth of the city and will contain the many new residence districts, and the three additions in territory will be incorporated. The book will not be distributed gratis this time, but will be sold by subscription for \$1.00.

Mr. Thornton will call upon business men in regard to contracts and information can also be given out at the office. The work is already under way and we hope to issue the directory by the first of the year.

TO ENTER COLLEGE

To End Grief Over the Loss of Their Child.

To assuage grief caused by the death of their only child, Sheriff Edwin L. Coates and his wife, of Boulder, Col., have entered the University of Colorado, the wife to take a graduate course and the sheriff to study law. Each is 30 years old. Coates is a Democratic leader, and was postmaster from 1897 to 1901. The marriage of the couple took place shortly after the wife left school. They had one child, who died last spring, aged 6, and their sorrow has been so great that they have taken their doctor's advice to relieve it by concentrated study.

"Simple Simon Simple."

"Safety and sanity lie in systematic and useful efforts. Happiness and health are synonymous. Happy people do not get sick unless run over by automobiles or something like that. The whole scientific world now agrees that disease has its rise in morbid mentality." Profit by the words of wisdom of this wise guy and do not miss seeing "Simple Simon Simple" when it appears at Holland's Opera House, Thursday, Oct. 18.

Every house in the city ought to be numbered. An ordinance providing for this was passed several years ago.

Butter is one of the scorchers of household necessities. Something unusual with a wet summer just behind us.

Bob West went fishing yesterday. He had 100 minnows he secured by wading into the river and seining for them. Bob's a natural born fisherman.

The right men are interested in the movement to build a \$40,000 house of amusement here, which has been talked of for three years, and it may be a go this time.

What about the unfinished Y. M. C. A. building? It looks to a man in the conning tower as if the ladies will have to take a hand in raising the money to complete it. If they attempt it they will succeed.

The coal dealer is ahead this week, with the stove man a close second. The ice man has had his day, until next spring, though we may expect a few warm days before winter sets in earnest.

That the people have confidence in the future of Hopkinsville was manifested at the sale of lots Tuesday by the Forbes Mfg. Co. Competent judges say that the prices were above their calculations.

A man has been sent to Kentucky from Washington to select building sites for half a dozen new Government buildings—but he won't come to Hopkinsville, sad to say. And it is principally our own fault.

Christmas turkeys are going to be scarce and high for the Thanksgiving feast. Not so much on account of the shortage in the crop, but because they are wanted in the larger cities.

There is talk of enlarging the Methodist church. The present auditorium is too small for a membership of 800. It is probable that the cottage in the rear of the church will be moved for the purpose.

WHAT though a butcher bill he owes,
Some two years overdue;
And is in debt for coal and clothes
And other items too?
What though his little girls must sew

And always "buys" in turn.

What though his wife is worn and bent,
Ill-clad, abjectly dumb?
What though he takes her every cent

And his acquaintance spurn?
Oh, no, for he's a whole-souled chap
And always "buys" in turn.
